

Client Testimonials: Exceeding Expectations Through Expertise and Dedication

"I must say that Erasmith acts as a real partner without any commercial strings attached. I also must say big thanks to the technical team who did an excellent job! on the development needed to enable the integration of our Ticketing platform (SMAX) to Cisco TAC for Auto ticket creation".

Veljko Stanojevic at Combis EU Croatia

"Erasmith has far exceeded my expectations on every level in the DCA Automation project that had 400+ complex workflows to be delivered in a short time".

it is the first time that I have met up with a project manager that was able to adapt and grasp so rapidly the new technology and be able to guide the team without too much effort .

From a customer facing point of view ,the team has been very friendly and willing to go the extra mile .

The operating systems that had to be dealt with included. Multiple flavours of Linux , AIX ,Windows 2012 besides the list of applications and databases in use covered a huge spectrum.

Tony Raphael at Vodacom South Africa

"Erasmith really delivers. They not only take the time to understand your goals but learn about your business and provide help in a context that makes sense. their style is that of an educator, so you understand *why* you're doing what you're doing. Erasmith team have been totally professional, competent and always responsive."
