

SMAX Mobile Workorder Management App

Empowering Field Engineers With Real-Time Control

About the App

The SMAX Mobile Application, also known as the SMAX Mobile Workorder Management App, is designed specifically for field engineers working with the OpenText SMAX platform. Built for mobility, speed, and simplicity — this app eliminates paperwork, accelerates updates, and keeps field operations organized at all times.

Whether you're managing one task or a full workload, SMAX Mobile ensures you're always in control — right from your device.

Deployment and Design

Crafted for both Android and iOS platforms, the app offers a clean, modern user experience with intuitive navigation.

- 💡 Responsive UI for field use
- 🔒 Secure API sync with SMAX backend
- ⚙️ High-performance architecture ensuring data integrity
- 🎯 Minimal learning curve, even for non-technical users

Why Use SMAX Mobile?

The app makes managing work orders in the field effortless:

- View & Manage Work Orders — assigned to you or your team
- Search, Filter & Track — by agent, status, or date
- Update Task Status — on the go, in real time
- Access Task Details & Documents — including instant PDF sharing

What You Can Do

The app makes managing work orders in the field effortless:

- 📄 View & Manage Work Orders — assigned to you or your team
- 🔍 Search, Filter & Track — by agent, status, or date
- 🔄 Update Task Status — on the go, in real time
- 📄 Access Task Details & Documents — including instant PDF sharing
- 👤 Stay Connected — with team members and supervisors
